FOSCARINI

Caboche Suspension Light by Foscarini

The Caboche suspension is a mosaic of bright and rich refractions, embellishing any room with its extraordinary lighting effect. Described as a “bracelet of sparkling transparent pearls”, when turned on the light diffuses from inside the spheres light bright crystals, bathing interiors in reflective jewel-like light. Offering direct upward and downward light projection and diffusion throughout the space, the Caboche Suspension is not only a decorative piece but also functional.

Composed of 363 transparent polymethylmetacrylate spheres and available in either transparent or gold amber, the Caboche Suspension by Foscarini transforms light into a sparkling composition of transparent spheres: a design gem resulting from an amalgam of technology and creativity.

Designed by Patricia Urquiola and Eliana Gerotto, the Carboche for Foscarini is rich, bright and sophisticated. See the rest of the [Caboche Collection](#).
