### PRODUCT DESCRIPTION

**Designer:** Atelier Oi

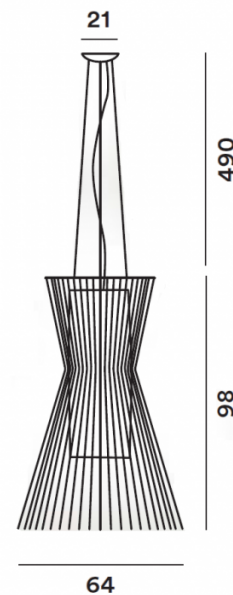

### Foscarini Allegro Vivace Pendant Light

The Allegro Vivace pendant was designed by Atelier Oi for Foscarini and is made from aluminium rods. The shade has a unique and angular shape which is stylish, contemporary and visually stunning. The pendant light can be used as both an ambient light and as a spotlight as it has two light bulb sockets, producing a downward and upward glow.

The size of the Allegro Vivace pendant light is wonderful for large spaces and rooms with high ceilings and will be a focal point of the room. Suspend over tables, use as a main light or have several to line the room, having an effective illumination. Match with other pendants from the collection to create a varied light feature and for smaller spaces you can buy pendant lights from the [Foscarini Allegretto collection](#), a range which brings the Allegro collection to a smaller scale.

### PRODUCT SPECIFICATION
