PRODUCT DESCRIPTION

Designer: Adrien Gardere

Artemide Melampo Wall Light

Artemide Melampo Wall Light brings a traditional look to the wall, with a movable diffuser that can be tilted and rotated to direct the light where it is needed. Designed by Adrien Gardère, it pairs an aluminium lamp body with a silk satin diffuser on a technopolymer frame.

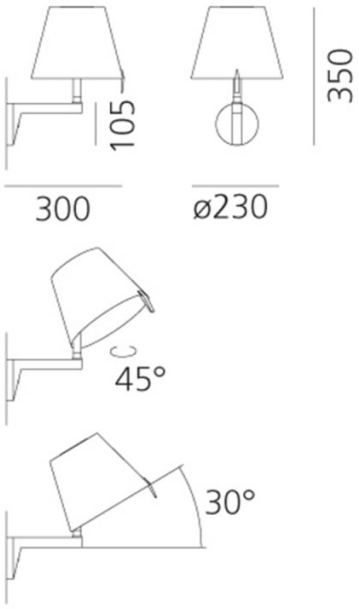

Its dual emission gives a softer ambient effect while still making the fitting useful for more focused light. The adjustable diffuser moves into two different positions, which gives the wall light a more flexible character than a fixed bedside or reading light.

Artemide Melampo Wall Light is available in Grey and Bronze Ecrù, keeping the same simple and elegant appearance across both finishes. Best suited for bedside use, reading corners, hallways, and other interior settings where adjustable wall lighting is needed with a softer appearance.

Please note, this product is also available with the option of an integrated on/off switch. Contact us for pricing and information.
