PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Artemide Tolomeo Wall Light

Artemide Tolomeo Wall Light takes the familiar Tolomeo structure and adapts it for wall use, featuring a cable and plug. Designed by Michele De Lucchi and Giancarlo Fassina, it keeps the adjustable head and stamped aluminium reflector, giving a direct, even light while holding onto the functional character of the collection.

The spring-balanced arm system is what gives the Tolomeo Wall its range of movement. It lets the lamp be repositioned in height and tilt without much effort, which makes it practical for reading and other more focused uses. The standard version reaches furthest, the Mini keeps the same diffuser size with shorter arms, and the Micro scales the whole lamp down for smaller spaces.

Artemide Tolomeo Wall Light is available in three sizes, with finishes varying by version, including Aluminium, Black, White, Blue, Orange, Red, and Glossy White. This makes it possible to keep the Tolomeo wall format across different parts of an interior, while choosing a size that feels proportionate to the space. Best suited for bedside settings, reading corners, desks, kitchens, and work areas where wall lighting is needed without using surface space.

PRODUCT SPECIFICATION
