Fabbian Cubetto Wall / Ceiling Light
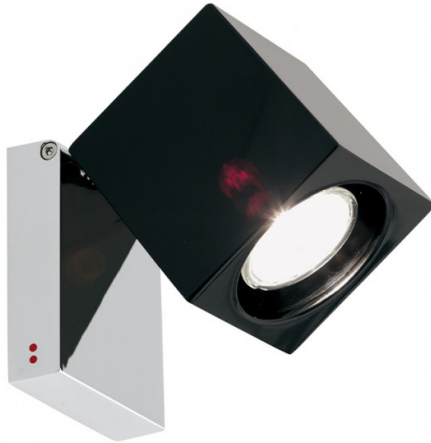

PRODUCT DESCRIPTION

Designer: Pamio Design

Fabbian Cubetto Adjustable Ceiling / Wall Light

Designed by Pamio Design, the Fabbian Cubetto Ceiling/Wall Light is an adjustable variation of the **Cubetto Ceiling**. Allowing the user to not only install it on the wall as well as the ceiling but also offer the ability to adjust the direction of the illumination. Its form was inspired by that of an ice cube, with Pamio Design aiming to create a highly functional lighting solution that resembled the "most important natural element".

As with the rest of the collection, this adjustable ceiling/wall light is available in three sleek finishes, choose between black, white or a more subtle crystal glass - providing it with the ability to adapt to a range of contemporary interior settings. The Fabbian Cubetto Adjustable Ceiling/Wall Light provides a functional task light that can be easily dimmed and is a great addition to workspaces, kitchens, hallways and entryways.
