Artemide Tolomeo Basculante Table Lamp

Artemide Tolomeo Basculante Table Lamp retains the system of spring-balanced arms that allows light to be moved to any position with ease, but replaces the aluminium head with a balanced diffuser. Designed by Michele De Lucchi and Giancarlo Fassina, it carries the same balance between functionality and aesthetics that has defined Tolomeo since 1987.

The clean, minimalist aluminium structure keeps the familiar Tolomeo profile, while the diffuser changes the character of the light. In this version, the output is softer and more diffused, with the balanced shade casting a gentler glow into its surroundings than the more direct Tolomeo table models.

Artemide Tolomeo Basculante Table Lamp is available with a Parchment diffuser or a Grey satin diffuser. The adjustable arm keeps the lamp practical for desks and tables, while the shaded head gives it a calmer and more domestic feel within the collection. Best suited for desks, bedside tables, reading corners, and living spaces where an adjustable table lamp is needed with a softer glow.
