PRODUCT DESCRIPTION

Designer: Pamio Design

Fabbian Cubetto Pendant

Designed by Pamio Design, the Fabbian Cubetto Pendant is a beautiful addition to our kitchen, dining area or stairwell. The rectangular diffuser is crafted from Italian glass and is available in either black, white or crystal glass - allowing this luminaire to adapt to a range of modern interiors. The illumination is projected downwards, casting a functional downlight onto the surface below, making it perfect for above kitchen islands or dining tables.

The Fabbian Cubetto Pendant is crafted through an intricate three-step process of preparing, moulding and cleaning the glass. The result is an elegant and unique lighting solution for residential and commercial settings. Pamio Design found inspiration in the "most important natural element" - ice. Which highlights where the sharp lines and geometric silhouette of the Cubetto Pendant has developed from.
