PRODUCT DESCRIPTION

Designer: Jurgen Bey

Light Shade Shade by Moooi

Light Shade Shade was designed by Jurgen Bey for Dutch company, Moooi. The ingenious design behind the Light Shade Shade lights is highlighted with a semi-transparent mirror shade which conceals the interior chandelier. When the lights are off, the mirror shade will reflect its surroundings. The light completely changes when switched on, as its beauty within, the chandeliers, are instantly exposed. The Light Shade Shade 47, the smallest in the collection, has a slightly different interior chandelier - one with decorative glass beads.

The Collection represents a modern interpretation of the more traditional chandeliers found in ball rooms and foyers. With the mirror film shade, the Chandeliers are instantly upgraded and become a contemporary lighting design. The Light Shade Shade lights are available in three sizes: Light Shade Shade 47, Light Shade Shade 70 and Light Shade Shade 95. The perfect choice for any room around the house, as well as in hospitality.
