PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moooi Non Random Pendant

The Non Random by Bertjan Pot is made from fibreglass soaked in epoxy resin, woven into a compact form that resembles a ball of yarn. The mesh shade doesn't create a visual block, giving the pendant a sense of weightlessness while keeping the room light and bright. When lit, light escapes through the latticed frame, causing the fibreglass web to glimmer while a play of shadows is projected against the surrounding walls.

With a structure that is as sculptural off as it is when switched on, the Non Random Pendant is a perfect centrepiece above a dining room table or office desk. The pendant is available in two sizes, in a choice of two finishes: white or black. These minimalistic colourways complement the contemporary tone of the Non Random, allowing the collection to suit a wide range of modern interiors. In commercial spaces, the Non Random is ideal for providing bright, functional lighting in office spaces while adding a touch of sophistication.

PRODUCT SPECIFICATION

Light Source: 1 x Max 60W E27 (Excluded)

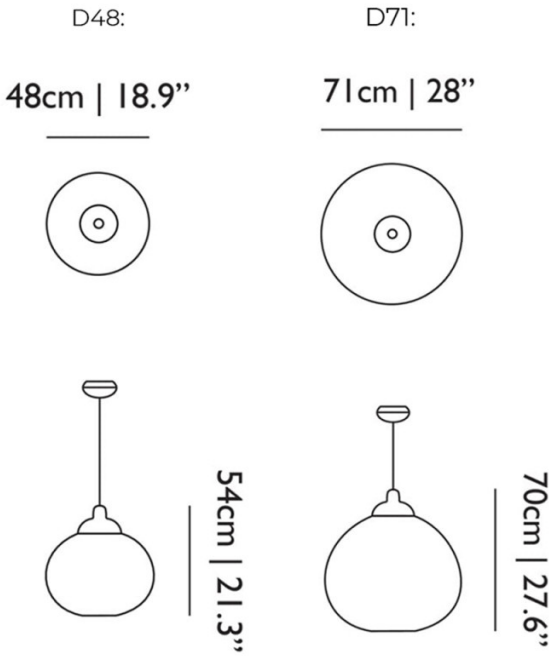

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: **Non Random D48**:
Ø48cm
Height: 54cm

Non Random D71:
Ø71cm
Height: 70cm

Cable Length: 400cm
