Paper Chandelier by Moooi

The Paper Collection is the child of Job Studio, comprised by Job Smeets and Nynke Tynagel. Paper Chandelier is basically an exquisite piece of art and lighting made with papier-mache. The process is something we are all familiar with, most of us used to create all sorts of crafts with glue and paper. The designer duo utilised paper, wood and cardboard to create a synthetic and highly durable material for the Paper lights.

The Paper Chandelier L is the smallest in its range, as there is also the Paper Chandelier XL with 155cm height and finally, the more colourful option of the [Paper Patchwork Chandelier L](#). Studio Job were inspired from the classic and more traditional forms of lighting, and reimagined them with a more playful and quirky character. The Paper Chandelier can provide both ambience and an accent piece for any interior. The Paper Chandeliers are customisable with a set of shades, please [contact us](#) for further information and pricing.
