## Paper Floor Lamp by Moooi

Studio Job used a seemingly delicate and fragile material and managed to create a significantly robust material. The designer duo behind the Paper Lights created the Paper floor lamp, the modern intake of the more classic light figures. The sheer size of the lamp makes it instantly stand out in any interior setting. Studio Job were inspired from the intricate details of the more classic lighting silhouettes, and created a one of a kind collection of lights.

Paper Floor Lamp was created using wood, paper and cardboard. The method is not unknown to most of us, paper-mache with paper and glue was how we all pretty much explored our artistic calling, since kindergarten. The lamp is available in an all white or pastel blue finish; but there is another lamp, the [Paper Patchwork](#) Floor Lamp available with a white shade and yellow body colour. The floor lamps emit a diffused and indirect warm light, becoming a centre piece in any environment. Explore the entire [Paper Collection](#), which includes wall lights, table lamps and chandeliers; all providing a warm ambience yet simultaneously draw all eyes when you enter the room.
