PRODUCT DESCRIPTION

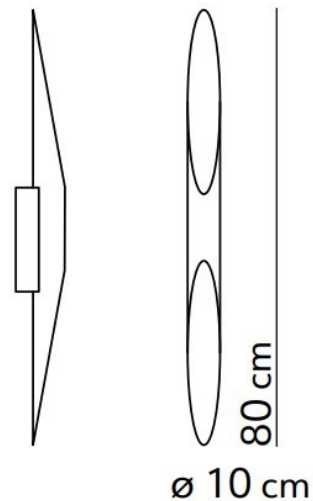

Designer: Marzio Rusconi Clerici

KDLN Shakti Wall Light

The Shakti wall light by KDLN is a stunning and sleek addition to your wall. Its open-ended tubular diffuser allows for uplight and downward light as well as beautifully diffused light that appears through the plexiglass shade. This mix of atmospheric and directional light makes this KDLN wall light the perfect addition to a vanity, bedside or hallway. The sleek design looks effortless and simplistic, allowing the light to act as the main feature.

The plexiglass shade provides beautifully diffused light from all viewpoints, as the light source is delicately enveloped by the shade. The effortless design of the Shakti results in a design that can work within multiple different interiors and styles. The main feature is the light that is produced, however, the Shakti wall light by KDLN also brings a touch of elegance to a room when switched off.
