PRODUCT DESCRIPTION

Designer: Guglielmo Berchicci

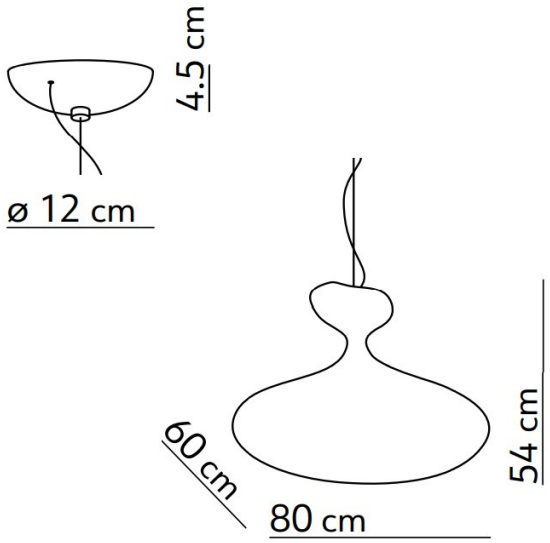

KDLN E.T.A. SAT Pendant

The KDLN E.T.A. Pendant, designed by Italian designer Guglielmo Berchicc, is a striking study in the relationship between material and light. Its fluid, irregular silhouette gives it an organic, otherworldly quality, while the handcrafted construction ensures each piece has its own subtle character. The diffuser is made from ecological fibreglass, meticulously crafted into a sculptural form. This is complemented by a polycarbonate reflector and a metallic inner structure.

The E.T.A. Pendant is available in white or orange, making a strong statement, whether illuminated or switched off. When illuminated, the pendant provides atmospheric, evenly distributed light, perfect for creating a warm and inviting atmosphere. This welcoming ambience, paired with the pendant's generous proportions and expressive form, makes it particularly well suited above a dining table, in a living room, or as a statement piece in an entrance hall.

PRODUCT SPECIFICATION
