Santa & Cole GT7 Suspension

The GT7 pendant lamp is a larger version of the GT5 and GT6 pendants, which were originally developed in 1994 by the Santa & Cole brand. The lighting brand wanted to develop a lampshade that used something different from the usual cardboard or methacrylate and so developed a ribboned shade. The fabric lampshade creates a beautiful billowing effect and soft lines, perfect for use in any design scheme.

The GT7 pendant light is available in three colour finishes, black, red-amber, and natural, with each one adding a pop of colour or subtly to interiors. The pendant also has a PVC diffuser, concealing the light source for warm and comfortable illumination. Use as a main light thanks to its large size in homes, offices, commercial spaces and more.
