Santa & Cole TMD Table Lamp

The Santa & Cole TMD Table Lamp was designed after the success of the TMM floor lamp, another design by Miguel Milá. The TMD instead has a metallic structure, unlike the TMD's wooden one, and a circular base instead of a cross one. As with other lights in the collection, the shade is height adjustable, utilising a simple rubber ring to affix the shade at the desired height; the concept is based on how a flag is raised on a mast. To switch on the light, all you have to do is pull the cable lightly.

The linen lampshade of the TMD Table Lamp creates a calming ambience, producing a warm diffused glow. The adjustable shade grants you the ability to personalise the ambience in your space. With a lower shade the TMM produces a more direct illumination, whereas at a higher setting, it emits a wider and more calming glow across the surface below. Whether it's on the desk, a table or the floor, the Santa & Cole TMD Table Lamp delivers aesthetic charm and illumination.
