PRODUCT DESCRIPTION

Designer: Miguel Milá

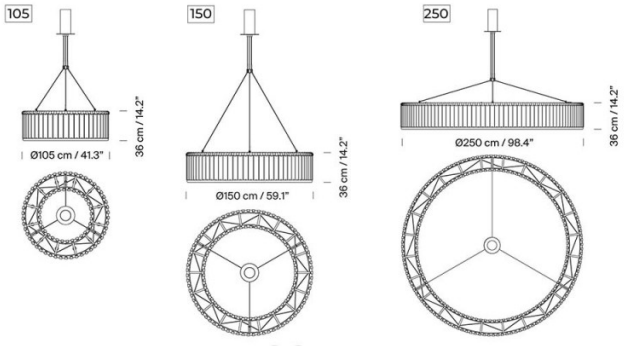

Santa & Cole Estadio Single Support Suspension

Miguel Mila designed the Estadio Single Support Suspension in 1992, it consist of a metal ring with glass blocks, which project the light all around your space. The design and shape of the Estadio reminds us something from the Medieval times, where iron lights had a prominent position in castles or cathedrals, with numerous candles placed carefully and lighting up every room.

The Estadio Suspension was originally conceived for the 1992 Olympics in Barcelona, it is available in three sizes as well as in a linear version. The Estadio Suspension is also available with a triple support. This luminaire was specifically designed to be displayed in larger commercial spaces, it has an overwhelming presence and produces a functional lighting output. A beautiful addition to office buildings, shopping centres, restaurants and hotel lobbies.

PRODUCT SPECIFICATION

Light Source:	**Estadio 105**: 12 x Max 11W LED E27 (excluded) **Estadio 150**: 18 x x Max 11W LED E27 (excluded) **Estadio 250**: 24 x x Max 11W LED E27 (excluded)
