PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Costanza Telescopic Suspension

The Luceplan Costanza Suspension Telescopic Light combines tradition and technology. Designed by Paolo Rizzatto in 1986, this light harnesses a timeless elegance and can settle perfectly in to any décor style due to it's easy personalisation. The interchangeable shade comes in ten different colours and diffuses a warm and pleasant light, perfect for reading, working, writing or just resting.

The Costanza can vary its height from 100cm - 150cm, it is easy to adjust by loosening and tightening the bolt on the stem of the light as seen on the specification sheet. The suspension version allows a very flexible use of this light, as it can be applied to any part of the ceiling even when there is no available mains plug on it.

Costanza diffuses a warm and pleasant light and fits naturally into any setting without posing any restraints on décor styles. This light would be a great addition to a living area or kitchen in your home as well as perfect for public spaces such as restaurants, bars and hotel bedrooms.
