### PRODUCT DESCRIPTION

**Designer:** Paolo Rizzatto

Luceplan Costanzina table lamp, designed by Paolo Rizzatto.

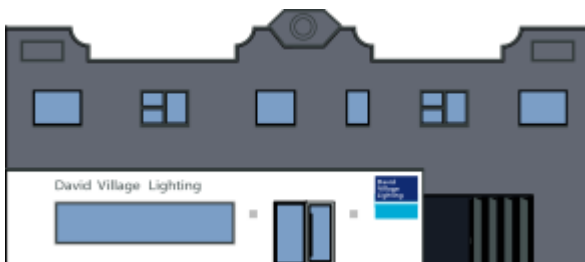

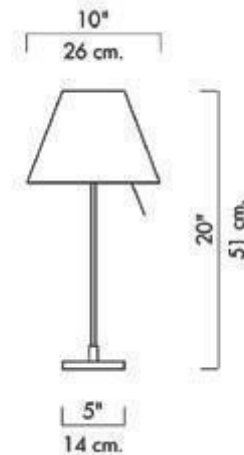

For reading, working, conversing, writing, resting or meditating. The on-off switch is released by the rod attachment.

The light and washable shade, resting on the two points of balance and therefore capable of oscillating if bumped, diffuses a warm and pleasant light. Its unmistakable, slim but structurally solid structure fits naturally into any interior. The rotational brush treatment of its natural aluminium square base emphasises the quality and distinction of this material.

Also available with a multi coloured diffuser. Please see related products. There is also a version with a black diffuser with aluminium or black structure. Please contact the office for more details. Tel: 01142634266 or email:
