PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

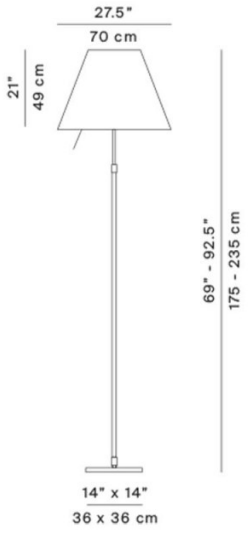

Luceplan Grande Costanza Floor Lamp

It has now been over thirty years since the Costanza range was first designed by Paolo Rizzatto, it has run through different styles and eras without changing, always appropriate, up-to-date and elegant. So it makes sense that the Grande range became a new addition to the family. To celebrate its enduring success, Luceplan is now introducing new proportions to convey the success of the Costanza range. The same materials and the same technology are used, unmistakable signs of avant-garde design. Grande Costanza is poised between visibility and delicacy, boasting a simple yet stark stature. Its light is atmospheric, suitable for private and public interiors alike.

The Grande Floor Lamp can be adjusted between 175cm & 235cm to fit the needs of your space. It also includes an integrated on/off switch that is easily accessible underneath the shade as seen on the specification sheet. This floor lamp is perfect for hallways, living rooms, hotel lobbies and restaurants to emit a warm and ambient light across the room.
