PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Grande Costanza Open Air Exterior Floor Lamp

It has now been over thirty years since the Costanza range was first designed by Paolo Rizzatto, it has run through different styles and eras without changing, always appropriate, up-to-date and elegant. So it makes sense that the Grande range became a new addition to the family.

To celebrate its enduring success, Luceplan is now introducing new proportions to convey the success of the Costanza range. The same materials and the same technology are used, unmistakable signs of avant-garde design. Grande Costanza is poised between visibility and delicacy, boasting a simple yet stark stature. Its light is atmospheric, suitable for private and public interiors alike.

The new Costanza Grande Outdoor version is able to grant light to your outdoor space with elegance. This light still carries the classic design of the Costanza range, so that the cosy effect of an indoor floor lamp is carried into your outdoor areas. To ensure that it stands securely in various weather conditions, the Grande Costanza Open Air floor lamp includes a disc-shaped base which is screwed into the floor. The integrated on/off switch is hidden underneath the light source at the top of the lamps body.

When using outdoor luminaires, basic safety precautions should always be followed.

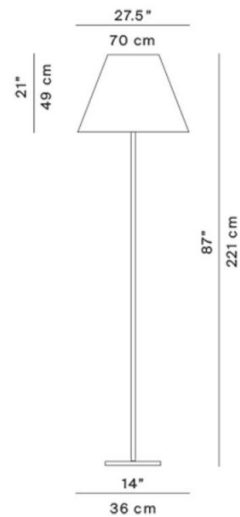

PRODUCT SPECIFICATION

Light Source: 1 x max 205W HSGST E27 (excluded)

IP Code: 44

Dimming: Integrated on/off switch on the product.

Dimensions: Height: 221cm
