Luceplan Hope Suspension Light

The Luceplan Hope Suspension Light is the most influential light in the Hope collection. Offering a range of sizes, this luminaire gives you full control of how much attention you want to bring to a room. The shade is curated from extremely thin Fresnel lenses, which reflect the light upon each other when turned on, giving it the appearance of a large sparkling diamond. The lenses optimise reflection and distribution of light, meaning you are not sacrificing functionality for a striking design and you can recreate the effect of glass, without the limitations. Unlike traditional glass or crystal fixtures the Fresnel lenses are much lighter and much less fragile.

The result of such a unique shade design is a beautifully crafted lighting design that is cast around the room. Perfect for environments with high ceilings, the Hope Suspension not only provides the room with an ambient illumination but also serves as an impressive eye-catcher, thanks to its extraordinary visual presence. The smaller models of this light have a large impact in bedrooms, kitchens and living areas to add a touch of extravagance to a room, whereas the larger models make a satisfactory impact in restaurants, hotel lobbies and other public spaces that require an elegant yet modern touch.

Available in four sizes.

All lights in the Hope Collection will require assembly, assembly instructions included.

PRODUCT SPECIFICATION

Light Source: **Small:** 1 x Max 20W LED E27 (excluded)

Medium: 1 x Max 20W LED E27 (excluded)

Large: 3 x Max 20W LED E27 (excluded)

Extra Large: 5 x 20W LED E27 (excluded)
