PRODUCT DESCRIPTION

Designer: Alberto Meda & Paolo Rizzatto

Luceplan Lola Wall Light

The Luceplan Lola Wall Light, designed by Alberto Meda and Paolo Rizzatto, is a lightweight lamp whose design was based upon the theme of dematerialisation in the world of lighting - resulting in the stripped back and minimalistic style of this light. Lola is easily recognisable with a light head made of glass fibre reinforced polyester, the head also hosts a micro perforated steel reflector that shields the light source, the reflector can be orientated by a thin rod to provide either a direct or indirect light. The elegant lines and minimalistic triangular shape turn Lola into a stylish light, it is both bold yet discreet.

Alberto Meda and Paolo Rizzatto have created a timeless light fixture with an beautifully simple shape using complex technologies - the Lola Wall Light is the carbon fibre lamp whose technology, form and highly innovative qualities earned it the Compasso d'Oro prize.

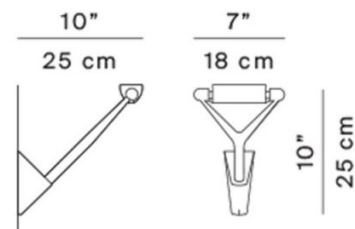

PRODUCT SPECIFICATION

Light Source: 1 x max 240W HDG R7s (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Depth: 25cm
Height: 25cm
Width: 18cm
