PRODUCT DESCRIPTION

Designer: Alfredo Häberli

Luceplan Lane Wall

The Luceplan Lane Wall Light is a sleek aluminium strip that releases a soft diffused light both upwards and downwards against the wall. The luminaire body is slightly inclined, meaning that a larger part of the light points upwards and a smaller part downwards.

This light boasts a neat and minimalistic design by Alfredo Häberli and fits snug against the wall, making it as unobtrusive as possible. The Lane Wall Light works independently or can be grouped together to create more of a feature on your wall. A perfect addition to a hallway for a simple lighting option, a bedroom or living area to create ambient lighting or even a kitchen or restaurant for a soft and functional glow.
