PRODUCT DESCRIPTION

Designer: Alberto Meda & Paolo Rizzatto

Luceplan Queen Titania LED Suspension

Designed by Alberto Meda and Paolo Rizzatto for Luceplan, Queen Titania Suspension Light is the extra large version of the Luceplan classic, Titania. At twice the size of the original, Queen Titania combines the perfect styling of Titania, with double the visual impact. The aluminium shell is made up of an ordered sequence of aluminium ribs, which reflect and dematerialise the source of light.

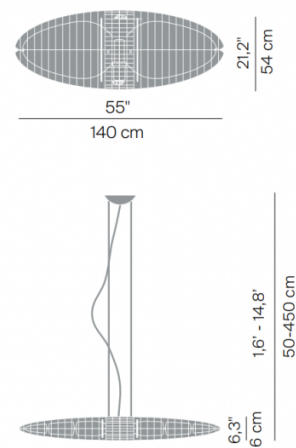

A slight touch is enough to send this light into a variety of suspended positions and, depending on which angle it is seen from, it assumes completely different appearances: transparent seen head on, solid seen from the side. The use of a pair of filters to the sides of the source of light also allows the body of the lamp to change colour without interfering with the emission of white light.

PRODUCT SPECIFICATION

Light Source: 2 x Max 205W E27 (excluded)

IP Code: 20

Dimensions: Min Drop: 50cm
Max Drop: 450cm
Length: 140cm
Height: 16cm
Width: 54cm
