Toobe Table Lamp by Kartell

Using an innovative colouring procedure, the Toobe table lamp is made by using a PMMA extruded tube creating a smoke effect. The Toobe lamp has simple and soft lines and the small coloration at the top allows for subtle hues to fill the room.

An energy saving bulb, supplied with the Toobe, means that you can use it 10x more and save up to 5x less energy. A small opening at the tube, functions as a handle so you transfer the lamp easily. The Toobe is also available as a [Floor Lamp](#).
