PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

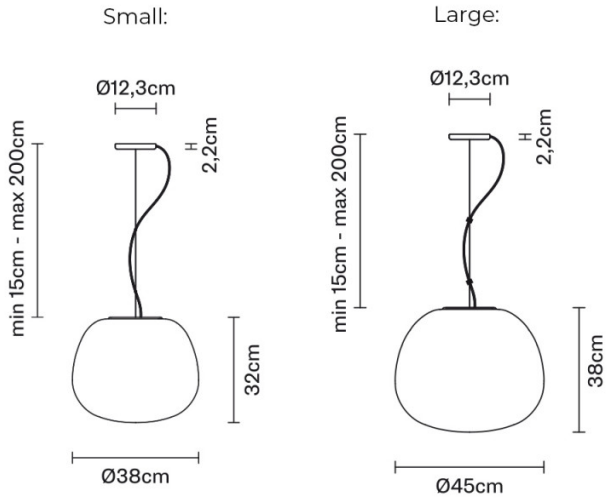

Fabbian Lumi Mochi Suspension

The Fabbian Lumi Mochi Suspension was designed by Alberto Saggia & Valerio Sommella, aiming to avoid the typical 'bulb shape' of most modern lights. This pendant is available in two sizes, with both options providing an expertly diffused but even dispersion of light. The luminaire aims to resemble the appearance of a Japanese rice cake "Mochi" after which the light fixture is named.

The Lumi Mochi Suspension is a beautiful addition to stairwells, bedrooms, kitchens, and entryways. It can also be used to enrich commercial interiors such as modern libraries, hotel lobbies, restaurants, bars, galleries and above shop counters. This refined lighting solution can be displayed singularly or in larger groups to form clusters for more extensive interiors, you can also combine both sizes to create a unique installation.
