PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

Fabbian Lumi Mochi Stemmed Table Lamp

The Fabbian Lumi Mochi Stemmed Table Lamp is a bolder recreation of the **Mochi Table Lamp**, featuring a painted-white metal stem and base. This stem boasts an opal white blown glass diffuser which is a common element throughout the whole collection. The iconic glass diffuser is designed to resemble the appearance of a Japanese rice cake "Mochi" after which the light fixture is named, it provides a functional but inviting diffused glow which thanks to the curves of the shade is evenly dispersed.

Designed by Alberto Saggia & Valerio Sommella, the Lumi Mochi Table Lamp is well suited to almost any contemporary space thanks to its simple and classic shape. It is ideal if placed on the bedside table in the bedroom, in a hallway, entryway or hotel lobby. It can also be positioned in groups in the living room or dining area.
