Behive Table Lamp by Foscarini

Designer Werner Aisslinger was inspired by the beautiful shape of the bee hive to create a table lamp for Foscarini. The Behive table lamp takes the natural shape and turns it upside down to create a lovely lamp that is constructed from multiple rings. The light source is covered by an inner diffuser to produce a glare-free, soft glow and the light can also escape from the sides to create an overall illumination.

This table light comes with a dimmer switch included on the cable so you can create a nice ambience in the room, whether you need a bright light for reading or a low light for a cosy night in. Suitable for many settings such as lounges, dining areas and bedrooms, the Behive table light can be placed on side tables, tables, shelves or even on the floor to create different levels of lighting in the room.

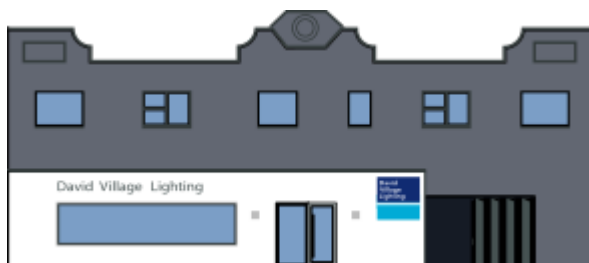

PRODUCT SPECIFICATION

Light Source: 1 x E27 150W max (excluded)

IP Code: 20

Dimming: In line dimmer included on cable

Dimensions: Ø39.5cm
40cm height
