PRODUCT DESCRIPTION

Designer: Ionna Vautrin

Foscarini Chouchin Pendant Light

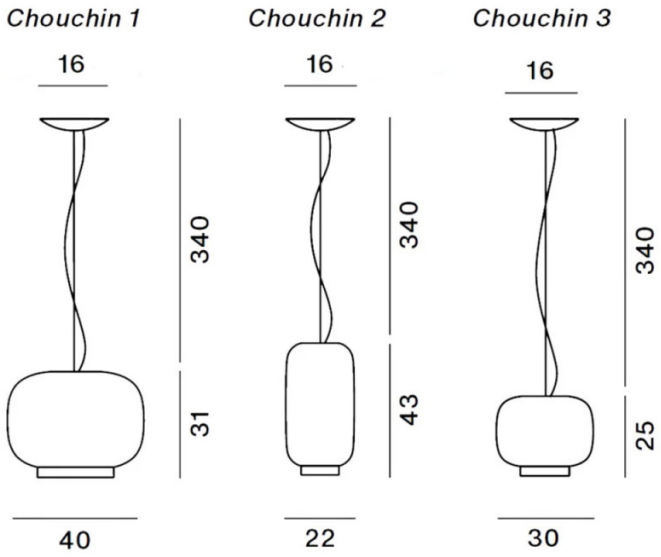

The Chouchin pendant is named after the traditional Japanese lantern, which is usually made from paper and is spherical in shape. This pendant reinterprets the design and updates it by forming various round shapes with beautiful blown glass, a staple of historic Italian design.

The Chouchin pendant light is available in 3 different shapes that all have their own colour finish. Each pendant light has its own distinct character with a lovely glossy and opaque finish, popping with colour and gorgeous smooth lines. The shade emits a downward direct light that is perfect for hanging over surfaces or tables and the lights can be used together in rows or clusters or you can buy one to use as a main light. Wonderful in homes, offices and commercial settings, this light can be used in kitchens, receptions, bedrooms and more.

The Foscarini Chouchin Pendant is also available with an integrated LED light source. Please contact us for more information and pricing.
