PRODUCT DESCRIPTION

Designer: Maarten Baas

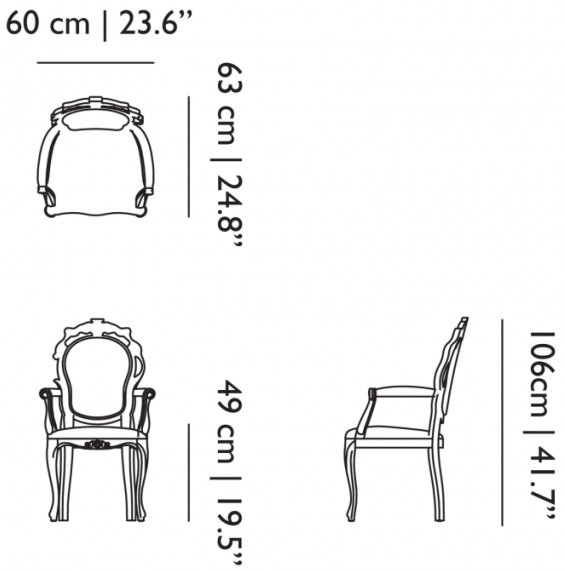

Moooi Smoke Dining Armchair

For the Smoke Dining Armchair, designer Maarten Baas managed to capture the beauty of burned and charred wood inside a long-lasting material. As part of his graduation project from the Design Academy in Eindhoven, Baas created a collection of chairs and a single chandelier light using burnt wood. It was a study of beauty and perfection, focusing on the ever-changing beauty within nature. To create the Smoke Dining Armchair, the wooden frame is set on fire and left to burn, smoulder, and eventually char. The wood is then treated with thick epoxy resin to keep it firm while maintaining its charred appearance.

The Smoke Dining Armchair adds a striking, gothic element to any room. Display around a dining table, lounge area, or in a study to create a comfortable seating area that exudes a grand personality. In commercial spaces, the armchair is guaranteed to leave a lasting impression in hospitality settings. Due to the process of creating the Smoke Armchair, each chair will have unique charred detailing, ensuring you have a truly one-of-a-kind piece.

PRODUCT SPECIFICATION

Dimensions: Full Height: 106cm
Seat Height: 49cm
Depth: 63cm
Width: 60cm
