Monster Chair by Moooi

The Monster is referred to our inner little voice that can be sometimes found, a battle between good and bad. Marcel Wanders presents us with this funky and soft chair, with a diamond pattern and no arms. The Monster Chair is made of synthetic leather and a strong steel interior frame. Wanders has made the chair available with or without the monster embroidery on the back. Whether the chair is scary you ask, well fear not and dare to sit on the comfort of the Monster Chairs. The bulky and disproportionate legs add to the quirkiness of the chair. Whether around a dining table or a conference room, the chairs will add a modern touch and feel in any interior space. The Collection includes the [Monster Chair with Arms](#).

The Monster Chair is also available in an upholstered fabric version, available in over 200 fabrics. For further information on options and pricing, please [contact us](#).
