PRODUCT DESCRIPTION

Designer: Komplot Design

Calabash Pendant Light by Fritz Hansen

Designed by Komplot Design in 2010, the Calabash pendant light is inspired by the calabash pumpkin, taking its curved form for its design. The pendant is beautifully curvaceous and has smooth, rounded lines that make it eye-catching and spectacular. The shade curves inward at the bottom, creating a downward directed light that is soft and glare-free.

The Calabash pendant is available in 4 finishes, gold, silver, grey meteor and black meteor, which are all luxurious, adding a stylish and sumptuous touch to the room. This pendant light is also available in 3 sizes so you can find the right fit for your space. You can also mix and match sizes and colours to create a dynamic cluster which would be a gorgeous light feature. Suitable for homes and commercial spaces, this light will look good in dining rooms, kitchens and lounging areas.
