## PRODUCT DESCRIPTION

**Designer:** Manuel Vivian

## Clavius Suspension by Axolight

A stunning suspension light, the Clavius was designed by Manuel Vivian for Italian brand, Axolight. Vivian specialises in artisan production techniques, and it is no surprise that he has created numerous lights that have made their way into Axo's classics collections. The Clavius suspension light is no exception; with a streamlined design and hand-made silk thread fabric. The ceiling canopy and light details are available in a chrome or gold finish, and you may also choose a lampshade finish (white, sand or tobacco). The light emits a warm downlight and uplight, lighting up any interior. You may also adjust the light brightness, when the light is used with a dimmable light source.

Install the Clavius suspension above a dinning table, a meeting room, conference table, reception and from both high or low ceiling rooms. The light will bring a warm ambience and a decorative touch into any interior space. Whether for commercial or residential projects, the Clavius light is the perfect lighting solution.

An opal diffuser is available as an extra, please [contact us](#) for more information and pricing.

Browse through the Clavius Collection, including a floor lamp, table lamp (3 sizes) and a wall light available in the same colour options; chrome or gold frame and sand, white or tobacco silk thread shade.
