PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Fora Floor Lamp by Bover

The Fora floor lamp was designed in 2010 by Alex Fernández Camps & Gonzalo Milá. The lampshade is made from recyclable fibre, hand-woven to create a textured and natural look that is chic and artistic. Suitable for the outdoors, the lampshade covers a polyethylene globe which protects the light bulb that also creates a lovely warm and glare-free glow.

The Fora floor light is available in various finishes with the choice between a **light beige** or **rattan brown** shade and a **natural white** or **graphite brown** stem colour. The base plate is also available in 2 materials with the choice of either a **cast iron** or **beige/grey concrete** giving you versatility and a personalised touch. Use in many exteriors to provide light as the night draws in, useful for both homes and commercial spaces.

The concrete base plate is recommended for outdoor areas with high salinity or extreme weather conditions.

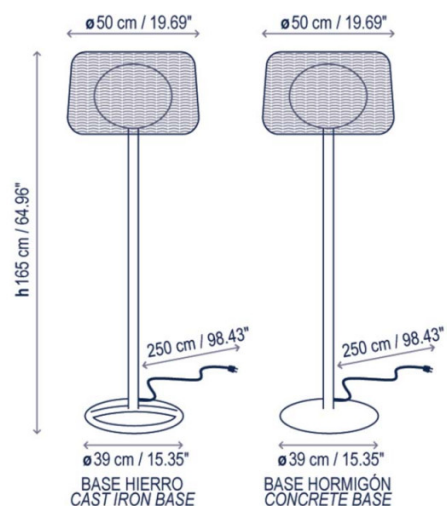

PRODUCT SPECIFICATION
