PRODUCT DESCRIPTION

Designer: Dodo Arslan

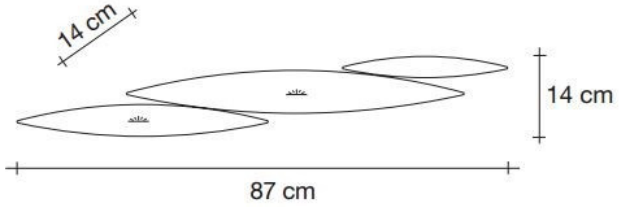

Terzani I Lucci Argentati Wall Light

The Terzani I Lucci Argentati Wall Light was designed by Dodo Arslan and is an enchanting modern lighting solution. The silhouette of the Terzani I Lucci Argentati Wall Light draws inspiration from nature, in particular a school of fish swimming through water, and holds a whimsical aesthetic. Slightly more stripped back than the I Lucci Argentati Suspension, the wall light utilises three geometric shades, all of which are fitted with LED technology. The integrated LEDs produce an indirect illumination which generates an inviting atmosphere.

This wall light is available in either a nickel or white finish, depending on your own style and how much you desire the design to stand out. The nickel finish makes more of a statement whereas the white finish blends more into its surroundings.
