PRODUCT DESCRIPTION

Designer: Dodo Arslan

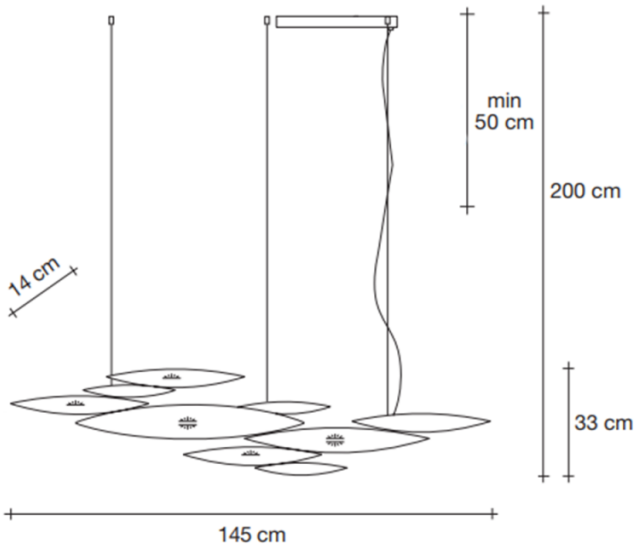

Terzani I Lucci Argentati LED Suspension

Designed by Dodo Arslan and manufactured in Italy, the Terzani I Lucci Argentati draws inspiration from nature to create a whimsical, yet modern light. Resembling a school of fish darting through freshwater, I Lucci Argentati generates a mesmerising illumination. The silhouette consists of various sleek diffusers in a range of finishes combined to form a stunning architectural pendant. These geometric shapes are fitted with LED technology and provide a functional direct glow perfect for dining areas, workspaces and kitchens.

Thanks to its modular system, I Lucci Argentati is customizable and can be combined in many different configurations: from small to extra large and finished either in brushed nickel, brushed gold or white. Style this enchanting light individually in a room for a spectacular focal point or as the finishing touch in your design project as an instant way to breathe modernity into your scheme.
